

MS-16

Medical/Veterinary Scale

- **Functionality**– Ideal for infant or small animal weighing with height gauge and memory hold
- **Capacity**– 44 lb x 0.01 lb / 20 kg x 0.005 kg with easy-to-use height gauge ranging from 13⁷/₈" x 27³/₄" / 35 cm to 70 cm
- **Construction**– Easy-to-clean white ABS plastic housing with four self-leveling feet and adjustable height gauge
- **Display**– Large 3³/₄" x 1¹/₄" / 95 mm x 32 mm easy-to-read LCD display with 1¹/₄" / 30 mm high digits
- **Power**– Four AA batteries (included) with auto-off
- **Simple to Operate**– Three easy-to-use operator keys (On/Zero/Tare, Unit and Memory Hold) keeps training to a minimum

MS-16 Medical/Veterinary Scale

Features

The MS-16 medical/veterinary scale with built-in height gauge is particularly suited to the medical or veterinary industry where weight and height can be quickly and efficiently taken. With a capacity of 44 lb / 20 kg and readability of 0.01 lb / 0.005 kg, the MS-16 will accurately weigh infants or small animals.

Easy-to-Use Keys: Three operator keys makes the scale fast and very simple to use. Place the MS-16 on a flat, safe and stable surface, turn on and use. The scale will automatically turn off after five minutes if not in use.

The scale has an easy-to-use "MEMORY HOLD" feature that captures an unstable weight allowing it to be recalled once the infant or small animal has been moved - making it ideal for small patients/animals that are constantly on the move.

Height Gauge: Designed for efficiency to help reduce stress on the patient, the MS-16 comes standard with an adjustable height gauge that can measure patients from 13³/₈" up to 27³/₄" / 35 cm up to 70 cm. Fold away paddles at either end of the height gauge can be quickly opened and adjusted to accurately measure the height of the patient being weighed.

Base Construction: With smooth curved edges, the scale safely cradles the infant while being weighed and measured in an easy-to-clean ABS plastic weighing platter.

Specifications

Capacity: 44 lb x 0.01 lb / 20 kg x 0.005 kg

Accuracy: 0.2% at full capacity

Unit: kg, lb

Height Gauge: 13³/₈" x 27³/₄" / 35 cm to 70 cm

Main Functionality: General weighing with height gauge, memory hold and auto-off after five minutes

Display: Large 3³/₄" x 1¹/₄" / 95 mm x 32 mm high LCD display with 1¹/₄" / 30 mm high digits

Operator Keys: On/Zero/Off, Unit, Memory Hold

Power: Four AA batteries (included)

Battery Life: 150 hours

Tare: 100%

Operating Temperature:

14° F to 104° F / -10° C to 40° C

Scale Dimension (L x W x H):

15.2" x 23.75" x 6" / 385 mm x 603 mm x 150 mm

Inside Tray Dimension (L x W):

11.8" x 22.8" / 300 mm x 580 mm

Product Weight: 7 lb / 3.2 kg

Packaging Dimension (L x W x H):

17.7" x 26.4" x 7.9" / 450 mm x 670 mm x 200 mm

Shipping Weight: 10 lb / 4.7 kg
